SELECTRODE Pyro Fuse Hot Spray Torch Kit

FEATURES & APPLICATIONS

PyroFuse

A hot spray puddle torch with infinite control powder feed adjustment lever

This simple and easy to use torch is available as a torch alone as item # 78080 or in a complete kit/carrying case combination with assorted powders as item # 78090

PyroFuse – A very useful puddle type spray torch for repairing and overlaying iron base components.

The following features are what make the PyroFuse torch unique:

1. Powder is drawn into the gas stream by aspiration rather than gravity for a positive accurate flow of alloy.
2. Powder aspiration is accomplished with oxygen only not with an explosive mixture.
